APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application,
and do hereby grant the same, subject to the following limitations and
conditions:

This permit is issued subject to all existing rights on the
source. A valve must be installed and maintained to prevent waste of
water and accurate measurements of water placed to beneficial use must
be taken from time to time. This source is located within an area that
has been designated by the State Engineer and coming within the meaning
of the provisions of the 1939 Underground Water Act as amended in 1943;
therefore the State has the right to regulate the use of the water herein
granted at any and all times.

The amount of water to be appropriated shall be limited to the amount
which can be applied to beneficial use, and not to exceed 0.3
cubic feet per second.

Actual construction work shall begin on or before September 18, 1947

Proof of commencement of work shall be filed before October 18, 1947

Work must be prosecuted with reasonable diligence and be completed on or
before September 18, 1948

Proof of completion of work shall be filed before October 18, 1948

Application of water to beneficial use shall be made on or before
September 18, 1949. Proof of the application of water to beneficial
use must be filed with State Engineer on or before October 18, 1949
